

SURVIVAL GUIDE

Read this if you have questions about specific cards.

TRIBAL COUNCIL

(4 SINGLE ELIMINATION CARDS)
(5 DOUBLE ELIMINATION CARDS)

When you draw this card, you must put it on the table in front of you IMMEDIATELY. You are the Tribal Council Leader.

Start the Tribal Council by encouraging players to talk about who they might be voting for. You decide when it's time to vote, and you are responsible for breaking ties.

Place this card in the Discard Pile after the Tribal Council is finished.

VOTE

(6 CARDS)

Every player gets 1 Vote Card at the start of the game.

When voting during a Tribal Council, you **MUST** place this card in one of the slots in the Voting Box. You must vote for a player in the current Tribal Council.

EXTRA VOTE

(7 CARDS)

When voting during a Tribal Council, you **MAY** place this card in one of the slots in the Voting Box (or save it for later). You must vote for a player in the current Tribal Council.

IMMUNITY IDOL

(4 CARDS)

Can only be played at Tribal Council **AFTER** all players have voted, but **BEFORE** votes are tallied. Any votes cast for you (or the player you choose) do not count.

If you're feeling secure and want to make (or protect) an ally, you can use this card for another player instead of yourself.

SORRY FOR YOU

(7 CARDS)

Play ANY time someone tries to take cards from you. Instead, they get nothing from you and must discard 1 card (regardless of how many cards you owe them).

This includes any card they attempt to steal from you at the start of their turn or any cards they would steal from you as an effect of another card (like the Do Or Die Card).

If you play a Sorry For You after a card that would allow more than 1 player to take cards from you, each of those players gets nothing, and must EACH discard 1 card instead.

TRIBAL ADVANTAGE:

CONTROL THE VOTE

(2 CARDS)

Play this card during a Tribal Council before voting begins to take any player's Vote Card. You **MUST** use that Vote Card in addition to your Vote Card during the Tribal Council at which this card is played.

If the player you pick has more than 1 Vote Card, you only take 1.

TRIBAL ADVANTAGE:

GOODWILL GAMBLE

(3 CARDS)

Give this card to another player during a Tribal Council before voting begins. This card counts as 1 vote, and **MUST** be used during the Tribal Council at which it is played (just like a Vote Card). They can use it to vote for any player they want.

TRIBAL ADVANTAGE:

I'M THE LEADER NOW

(1 CARD)

Play this card during a Tribal Council before voting begins to become the Tribal Council Leader.

It's your turn when the Tribal Council ends (or the player after you if you are eliminated).

I HAVE A BIG HAND POINTING AT A NUMBER AND A LITTLE HAND POINTING AT A NUMBER. ADD THEIR VALUES.
1=A AND 27=A

CONTINUED →

CAMP RAID (3 CARDS)

Place this card face up in front of any player. you take the next card they draw at the end of their turn, no matter what it is, but only after they look at it. Then, place this card in the Discard Pile.

You can't play this card on a player who already has a **Camp Raid** in front of them.

KNOWLEDGE IS POWER (3 CARDS)

Ask any player for a card by name. If they have it, they must give you 1.

You can refer back to this Survival Guide if you forget the name of a card.

THE SPY SHACK (3 CARDS)

Look at any player's cards and take one.

LET'S FORM AN ALLIANCE (4 CARDS)

Pick a player to be your partner. You and your partner EACH steal 1 card from any other player (for a total of 2 cards stolen). You *can* steal from the same player, but you *can't* steal from each other.

INHERITANCE (6 CARDS, 1 OF EACH COLOR)

Each Inheritance Card targets a different color player. When that player is eliminated from the game (by having both of their Survivor Character Cards turned over), you can IMMEDIATELY play this card. You get all of the cards in their hand instead of their cards going in the Discard Pile.

It can be useful to have the Inheritance for a player that isn't in the game. You can discard it if someone plays a Sorry For You against you!

REWARD CHALLENGE: DO OR DIE (3 CARDS)

This is a game of trust. Pick any player to play a single game of Rock Paper Scissors against. If you tie, you each swap 1 card of your choice. BUT if either player wins, they steal 2 random cards from the loser.

You can strategize with the other player before you play! If you want to be nice you can both agree to play the same thing (and discuss which cards you want to swap), OR you can be sneaky and tell them one thing but do another!

REWARD CHALLENGE: POWER PAIR (3 CARDS)

Pick 2 other players. On the count of three, all 3 players (including you) hold out 1, 2, or 3 fingers.

If EXACTLY 2 players show the same number of fingers, they each steal 1 random card from the 3rd player. If ALL players show the same number, each player discards 1 card.

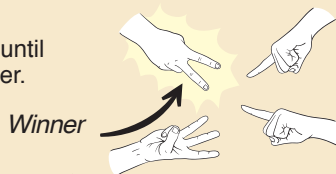

If everyone shows a different number of fingers, play again.

You can discuss what you're going to do before starting, but you don't have to tell the truth!

REWARD CHALLENGE: IT'S A NUMBERS GAME (3 CARDS)

On the count of three, all players (including you) will show 1-5 fingers. The player who shows the lowest UNIQUE number gets to steal 2 random cards from any player.

If necessary, repeat until there's a single winner.
